NAVODILA ZA VZDRŽEVANJE IN ČIŠČENJE

Za redno vzdrževanje vašega kavča vam priporočamo, da vso površino občasno očistite s sesalnikom. Uporabite lahko sesalnik za gospodinjstvo s prilagodljivo krtačo.

Čiščenje z vodo v pičlih treh korakih

1. Odstranite odvečno snov, ki se je razlila ali raztresla po tkanini.
2. Na madež nanesite vodo, direktno ali z vpojno krpo, ki ste jo namočili in oželi. Počakajte nekaj sekund.
3. S krpo pritisnite na madež in s krožnimi gibi narahlo drgnite po tkanini. Če madež ne izgine popolnoma, ponovite postopek tolkokrat, kolikor je potrebno.

Seda, madeže čistimo kar samo z vodo

Pri čiščenju z Aquaclean® Technology manjših madežev vina, kave, hrane in celo nekaterih flomastrov ni potrebno prati z milnico.

Vzdrževanje in čiščenje

• TEKOČINE ALI OLJA

Popivnjajte s krpo ali papirjem ter nato narahlo drgnite s krožnimi gibi.

• MAŠČOBA, KEMIČNI SVINČNIK

Krpo ali papir navlažite z vodo in postopek ponavljajte tolkokrat, kolikor je potrebno. Vmes vedno počakajte, da se blago posuši. Če madež ne izgine, uporabite malce neutralnega detergenta ali pa madež drgnite z milom za roke in tako pospešite postopek odstranjevanja.

• PRAH

Prah odstranite s sesalnikom za gospodinjstvo.

Pranje
